

Unique self-explanatory marking system for hydraulics!

Connection Plans with function symbols for standardization.

- Attached to the equipment to ensure proper labeling of hoses.
- Simplifies training and documentation - standardized operation - your safety!
- Manufacturers have access to documentation for use in their user manuals.

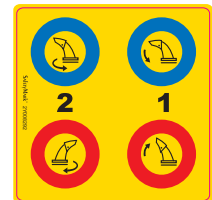

2Y008251 Trailer w/hydraulic tailgate

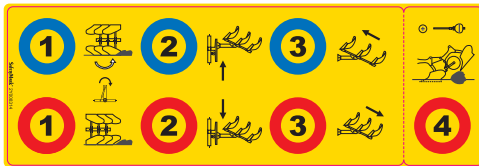

2Y008271 V-plough

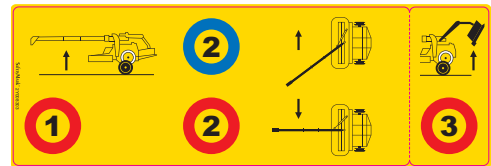

2Y008276 Multiplough

2Y008292 Snowblower

2Y008314 Mounted reversible ploughs

2Y008303 Trailed disc mowers

Safety can only be achieved at the correct and complete use of the system:

Red / plus must be used for: lift – lock – close

Blue / minus must be used for: lowering – open hatch – side shift right

Connecting plans for equipment ensures the same function regardless of the type of machine and operator when the system is used complete.

Safety Mark standardizes functions and ensures permanent marking!
